

YONEX CZECH YOUTH INTERNATIONAL 2026

News for participants

Tournament management

We ask all players to follow the schedule of matches and to always be ready in the hall before the date of their match. The organizer reserves the right, if necessary, to announce a match up to 30 minutes earlier than the official match schedule. We ask everyone to take this possibility into account and be in the hall early.

After the match is announced, the announced players go to the referee's table to get the match card and move to the assigned court.

All courts will be equipped with score counters, we ask all players to always bring someone with them to turn the score pointer.

4 courts will be equipped with empire and an online stream will be broadcast from them.

On these courts will be assigned referees.
